Fitted Garages

If you've  
a passion  
for **cycling**  
**excellence**

# Do you need more space in your garage?

**Cycling involves a whole range of gear, the mix of bikes, wheels, clothing, and care products can get out of control.**

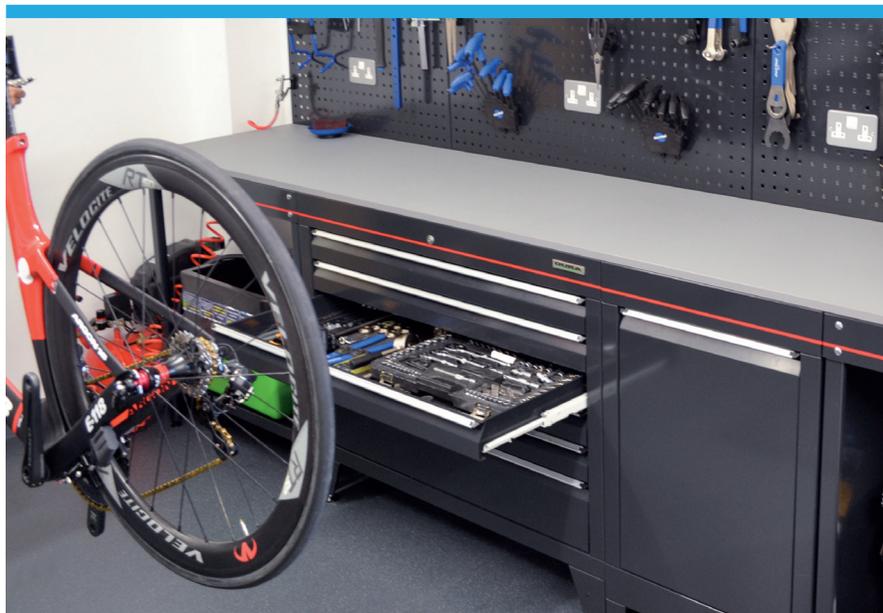

With this in mind we've taken every requirement of the modern cyclist to create a garage where everything has a place. Firstly, we've included a 1200mm wide tool storage cabinet with inset foams to ensure you have all the right tools to hand when working on your bike.

To ensure a safe and clean working environment we have designed a wash up area featuring an integrated towel and glove dispenser above a sink. To complete your new modular cabinet system we've selected a range of base and wall storage cabinets with built-in shelves, these are the perfect storage solution for bike care products and accessories.

Our cyclist garage wouldn't be complete without the addition of wall mounted storage, StoreWall. When used in conjunction with the Cycloc Solo, we can create bike storage that declutters your floor and creates a beautifully organised garage. Combine your wall storage run with a selection of utility hooks to store larger equipment such as wheels, removable saddles and handle bars.

Our final solution is an effective floor covering; Whether you use durable and easy to install PVC floor tiles or create a more elegant finish with a selection of heavy-duty porcelain tiles, installing a flooring solution will help to keep the garage warm, dust-free and clean.

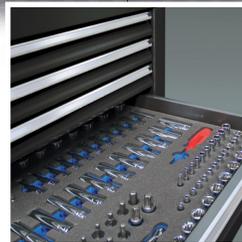

# The Cyclist's Garage

We understand that everybody has different needs, but to show you how versatile our products can be we have created an example layout for the 'perfect' cyclist's garage. This garage interior can easily be added to or adapted to suit your exact requirements to create *your dream garage*.

## Storewall

Flexible wall mounted storage to house both small and bulky items

## Tool cabinet

A variety of lockable drawer combinations in a compact footprint

## PVC Flooring

Easy to install interlocking tiles that create a perfect noise and thermal barrier

## Wash-up area

Integrated sink, towel dispenser and waste bin ensure a clean and safe working environment

## Cycloc

Revolutionary secure bike storage that seamlessly integrates with Storewall
